

Oriento SA

Via Maggio 1C, CH-6900 Lugano

Company profile

Oriento is a company offering advisory services in the life science market, enabling companies to achieve successful business development, always driven by innovative technologies, and thinking. At Oriento first we listen carefully to understand where our clients want to go and then we provide directions with first-hand experienced pathways. We proudly drive technological and organizational innovation as we believe it is time to provide new answers to old questions. The Oriento team will work with our clients to develop clear strategic definition or side-by-side supporting their organizations to learn how to develop the business through a collaborative mentoring approach. Being an innovative organization, Oriento relies on a proved, guaranteed team of experts and advisors with a collective experience of decades in the industry. This model allows Oriento's client to have a flexible and cost-effective access to the best competence for any specific program needs and only for the time needed to achieve the goal.
