

## Cerbios appoints Andrea Tam as Director of Commercial Business Development

Cerbios-Pharma SA (from now on "Cerbios") is pleased to announce that Andrea Tam has joined as Director of Commercial Business Development last Monday, May 14<sup>th</sup>.

In this role, Mr. Tam will be responsible for managing all aspects of the company's business development for the Chemical and Biological Divisions from the strategic, commercial and relationship management point-of-view.

*"We are pleased that Andrea has decided to join the Cerbios team to continue the strategy of growing our current business and to strengthen our commercial platform for the services provided in areas such as High Potency Active Ingredients and Recombinant Proteins/Monoclonal antibodies,"* said Gabriel Haering, CEO. *"Andrea brings a wealth of diverse experience in*

*contract manufacturing for the pharmaceutical industry, which will strengthen our unique service platform and address the evolving challenges of this industry."*

Mr. Tam holds a degree in industrial chemistry from the Università degli Studi di Milano, and is active in the pharmaceutical industry since 1998.

After a period as research associate at the University, he joined in 2000 the Italian subsidiary of Mitsubishi Chemical Corporation Group as R&D scientist achieving the position of R&D Manager.

In 2005, he joined Antibioticos Marketing & Sales Department managing special projects and custom projects with key accounts. His career continued between 2007 and 2012 with Recordati S.p.A. as Business Development in the Pharmaceutical Chemicals Division with world-wide responsibility and as BD Manager at Farmabios.

### About Cerbios-Pharma SA

Cerbios is a privately held company located in Lugano (Switzerland) specialized in the development and manufacturing of chemical and biological APIs for our partners world-wide. APIs made by Cerbios cover small molecules (Chemical Division), large molecules and Probiotics (Biological Division).

The Chemical Division has specialized in the past 30 years not only in **Reduced Folates** (leading position), but also in the manufacturing of **High Potency Active Ingredients (HPAIs)** with long-term experience in the field of **Vitamin D derivatives** requiring sophisticated production units with high containment levels.

The Biological Division has specialized since 1976 in the research, development and production of Probiotics as active pharmaceutical ingredients, pharmaceutical finished products and feed additives.

On top of that, in the last 15 years, Cerbios has acquired a vast experience on Recombinant Proteins from mammalian cells (CHO) based on a state-of-the-art platform.

Services for third parties under exclusive manufacturing is offered in the area of HPAIs for the Chemical Division and Recombinant Proteins for the Biological Division.

Full CMC support is provided to our partners in order to provide them with the supply of cGMP clinical batches, registration/validation material and APIs from commercial manufacturing.

Paramount to this is the supply of all documentation required for a successful registration.
